Summary

"The best preparation for tomorrow is doing your best today." by H.Jackson Brown, Jr.

My co-curricular activities are:
• Football
• Gaming
• Basketball
• Photography
• Hiking and traveling.

Then comes my introduction,
I am a hardworking and dedicated problem solver who gets his job done.
I am a Full Stack Developer and I have developed multiple applications with amazing and responsive UI with optimal speed and performance in different technologies. Designed complex data structures & relationships.

Experiences :
• Worked with MEAN Applications.
• Worked With MERN Applications.
• Worked with PHP-based Custom API's in Laravel.
• Worked with Firebase (FCM, PasswordLess Login, Push Notifications, RealTime DB & FireStore).
• Worked with Google and Facebook developers for social login in my applications.
• Worked with DeepLinking on my applications.
• Hardware-Based Ionic Applications
• Worked With NGX DataTables, High Charts, Apex Charts, Google Charts
• Ionic Complex UI Applications
• Ionic Angular Custom Dashboards
• PWAs
• Worked with React Typescript Electron Desktop application.

Projects:
• GoldAdder is a UK-based PWA & is also available in PlayStore as well as AppStore.
• TreasureNews.
• Gmail Clone.
• Spotify Clone.
• Krazy Klean.
• GlobalTv.
• FoodPanda Clone.
• ShutUp Devil.
• Joolep
• SportsWriters (PWA & WEB)
• Many other e-commerce business applications like
(BestIni etc).

• Multiple Admin Portals built for E-commerce Business in (Angular 10+, Laravel & React JS)
So if you have a task to be done, kindly let me know.
